Submissions (/problems/reverse-bits/submissions/)

Pick One (/problems/random-one-question/)

Reverse bits of a given 32 bits unsigned integer.

Example:

Input: 43261596

Output: 964176192

Explanation: 43261596 represented in binary as **00000010100101000001111010011100**,
return 964176192 represented in binary as **00111001011110000010100101000000**.

Follow up:

If this function is called many times, how would you optimize it?
