Given a binary tree, determine if it is height-balanced.

For this problem, a height-balanced binary tree is defined as:

a binary tree in which the depth of the two subtrees of every node never differ by more than 1.

Example 1:

Given the following tree [3,9,20,null,null,15,7] :

Return true.

Example 2:

Given the following tree [1,2,2,3,3,null,null,4,4] :

Return false.
